

FD T26 L18-67 BLUE

Model : 024233

FD T26 L18-67 BLUE

Manufacturer : Osram

ILCOS name: FD-18/BLUE-E-G13-26/590 Luminous flux (lm): 400 Light colour: Blue Diameter d (mm): 26 Length l max. (mm): 590 Colour 62 is ideal for:
microchip fabrication plants and other places where UV radiation and light from the blue end of the spectrum are unwanted (print shops for example)
shop windows and shop interiors
theatres for decorative lighting and lighting effects
patio and balcony lighting because the light does not attract insects.
Lamps with the letters SPS and UVS after the light colour have only a very small UV-A content (no UV-B or UV-C).
